Datascope Passport V

When monitoring your tailored anesthesia administration, simplicity and reliability come first. The Passport V offers both, so that you can focus on patient care - from pre-op to recovery room. A 12.1" color-coded display ensures that all of the vital data transmitted to the Passport V, including comprehensive physiological assessment, are always visible.

We know that the Passport V is integral to your anesthesia program, so their functionality is of paramount importance to us. At Doctor's Depot we take pride in our extensive knowledge of the Passport V monitors and ensure they always arrive in like-new, dependable condition.

- » Remote view with multi-bed alarm notification
- » ECG and IBP analog output
- » Device connectivity via DIAP and ethernet
- » Intra-aortic balloon pump interface
- » Integra3-trace recorder

Overview

While readjusting patients to new rooms can be a time-consuming puzzle, the Passport V wants to be a simple and reliable solution. Anticipating your every command, the Passport V is an intuitive display fit for a myriad of anesthesia needs, including GI/Endoscopy and Labor and Delivery care.

With the ability to display up to eight waveforms, the Passport V helps monitor your tailored anesthesia program, no matter the patient challenges. The Passport V comes standard with 3 or 5-lead eCg, masimo set® spo2, nibp, respiration, temperature, dual invasive blood pressures, and a 3-trace integral recorder, with options for st and arrhythmia analysis, nellcor® oximax® spo2 and microstream® or Dpm etCo2.

Created with convenience and patient safety in mind, an auto-configuration feature adjusts patient cable addition or detachment on a 12.1" display, visible from a myriad of vantage points.

Refurbish Process

Doctors Depot ensures the utmost care goes into maintaining all components of the Datascope, Datex Ohmeda, Drager, GE and Mindray anesthesia machines we sell.

Our team has extensive experience updating and maintaining the Datascope/Mindray Passport V, including the functions that offer you and your patients peace-of-mind in anesthesia administration.
