

Datex Cardiocap 5

The Datex Cardiocap 5 offers unprecedented anesthesia monitoring capabilities in a compact body, taking up less of your clinic's invaluable space. Tailored specifically for operating and recovery rooms, the Cardiocap 5 touts integrated hemodynamic and airway gas detection built into an intuitive, trusted interface.

Doctors Depot values the efficiency of a Cardiocap 5 and how the anesthesia-specific functions make your facility run smoother. That's why our team works hard to maintain the integral components of the Cardiocap 5 - so you can continue customizing your care, case after case.

Specifications

A Cardiocap 5 is built to handle all of your anesthesia monitoring needs, with Doctors Depot maintained components:

- » Integrated airway gases O₂, N₂O and CO₂
- » Automatic identification and measurement of all five anesthetic agents
- » Measured Patient Spirometry™ at airway
- » Integrated NeuroMuscular Transmission (NMT) measurement with automated TOF (train-of-four) measurements
- » Three-channel thermal array recorder
- » Data/Network option provides data continuity as patient data and trends are transferred between Datex-Ohmeda monitors

Overview

A Cardiocap 5 exceeds expectations for vital signs monitoring in a myriad of recovery and operating room settings. Continuous transmission on an easy-to-read screen, gives you control over your personalized anesthesia routine.

With automated quantification of all five anesthetic agents and patient gases, measured spirometry and a three-channel thermal array recorder, the Cardiocap 5 brings monitoring to the next level. Integrated NeuroMuscular Transmission, automated TOF measurements and patient spirometry allows you to stay in touch with crucial functions, while a Data/Network option provides continuity as patient data and trends are transferred between Datex-Ohmeda monitors.

The Cardiocap 5, with its large numerics and colorful waveforms, puts crucial vital information where you need it most. A built-in, backup battery ensures constant monitoring, even though unexpected power surges, while an integrated frame allows for simple attachment of optional wall mount, roll stand and anesthesia machine arms.

Refurbish Process

Doctors Depot ensures the utmost care goes into maintaining all components of the Datascope, Datex Ohmeda, Drager, GE and Mindray anesthesia machines we sell.

A Cardiocap 5 brings compact efficiency and intuitive logistics to your clinic, which is why we spare no expense in refurbishing each of those components. Doctors Depot values your decision to purchase this monitor and we take the utmost care in bringing them up to manufacturer standards.
