

Mindray A5 Anesthesia Machine

The Mindray A5, with its advanced ventilation modes and integrated spirometry, aims to be your intuitive partner in anesthesia administration. A highly functional and maneuverable design ensures that your time will be spent on patient care, while the A5's familiar interface streamlines and maintains your preferred workflow.

It's important to Doctors Depot that the A5 serves all of your clinical needs, which is why the superior mobility and ventilation capabilities that make the A5 special are always guaranteed.

Specifications

Having the ability to simplify workflow and anticipate clinician needs, the A5 is ready for integration, with Doctors Depot maintained features including:

- » Volume Control Ventilation (VCV) and Pressure Control Ventilation (PCV) with volume guarantee
- » Pressure Support (PS) ventilation
- » HL7 compatible, with IHE PCD profile
- » Synchronized Intermittent Mandatory Ventilation in volume or pressure modes (SIMV-VC and SIMV-PC)
- » Warmed Breathing System (35o C)

Optional:

- » patient monitor (DPMTM 7 shown)

Overview

The Mindray A5 is as dynamic as your practice. Pairing unmatched ventilation settings with an ergonomically designed, highly mobile device, the A5 keeps up with your clinicians, no matter the pace.

While perpetuating patient information, an A5 exceeds industry standards for HL7 data output and Electronic Medical Record (EMR) maintenance. Automatic compliance and fresh gas compensation maintain accurate tidal volumes, offering a wide range of breathing circuits. With its warmed Breathing System, the A5 virtually eliminates internal condensation.

The A5 is designed with mobility in mind. A built-in caster guard ensures cables and hoses are out of your way, while a 15" touch screen remains close at hand for all data-entry and monitoring protocols.

Refurbish Process

Doctors Depot ensures the utmost care goes into maintaining all components of the Datascope, Datex Ohmeda, Drager, GE and Mindray anesthesia machines we sell.

One of the unique features of the Mindray A5 is its ability to _____, which is why Doctors Depot updates/maintains the _____. A certified process involving _____, gives you peace of mind that the brand's exceptional technologies are never compromised.
